- Production date of the KID: 15/01/2024

You are about to purchase a product that is not simple and may be difficult to understand.

## 1. WHAT IS THIS PRODUCT?

### TYPE

A Deposit with an embedded FX derivative element - Premium deposit

### TERM

The product has a fixed contractually agreed term and will terminate after 1 month.

### OBJECTIVES

Premium deposit products are used to enhance treasury returns.

An Premium deposit is an agreement between two contracting parties (client/UniCredit Bank Czech Republic and Slovakia, a.s., organizačná zložka UniCredit Bank Czech Republic and Slovakia, a.s., pobočka zahraničnej banky) where the client invests an agreed investment amount of one currency (e.g. HUF investment amount) at an agreed premium interest rate and for an agreed maturity date. The premium interest rate is higher than the current market rate because it is directly related to the currency risk, arising from the potential repayment of the investment amount in another currency (e.g. EUR switch amount).

At maturity, you will receive a premium interest rate payment in the investment currency (e.g. premium interest rate payment).

The possibilities for the repayment of the investment amount are as follows:

- if at expiry date the spot rate (i.e. the price of the currency pair on the spot market) is above the strike rate, you will receive the agreed investment amount (e.g. HUF investment amount) on the maturity date.
- if at expiry date the spot rate is at or below the strike rate, you will receive the FX switch amount (e.g. EUR switch amount) on the maturity date. The switch amount will be determined by dividing the HUF investment amount by the strike rate.

In addition, you might agree to pay a premium to the bank; in any case, you will not get back the premium you paid.

Sample product terms are set out below and are based on legally predefined or realistic assumptions and may not match your specific contract details, e.g. your specific notional amount, whether or not you will pay a premium, etc.

Currency pair	EUR/HUF
HUF investment amount	HUF 3,000,000
EUR switch amount	EUR 8,121
Strike rate	369.4000
Expiry date	16/02/2024
Maturity date	20/02/2024
Premium	HUF 96,000
Premium settlement date	17/01/2024
Premium interest rate	9.27% p.a. in HUF
Decisive time	

## INTENDED RETAIL INVESTOR

This product is designed for retail investors who

- hold this product for the contractually agreed term,
- are in position to bear losses up to the total loss of the investment amount and
- have comprehensive knowledge of and/or past experience with OTC derivatives and the financial markets.

## 2. WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class.

**Be aware of currency risk.** You may pay and/or receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

In some circumstances you may be required to make payments to pay for losses. The total loss you may incur may be significant.

This product does not include any protection from future market performance so you could incur significant losses.

If we are not able to pay you what is owed, you could incur significant losses.

### PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		1 Month
Example notional amount:		HUF 3,000,000
Scenarios		If you end after 1 month
<b>Minimum scenario</b>	There is no minimum guaranteed return. You may have to make further payments to cover losses.	
<b>Stress scenario</b>	What you might get back or pay after costs Average return/loss over notional amount	HUF 2,591,702 -13.6%
<b>Unfavourable scenario</b>	What you might get back or pay after costs Average return/loss over notional amount	HUF 2,903,826 -3.2%
<b>Moderate scenario</b>	What you might get back or pay after costs Average return/loss over notional amount	HUF 2,930,223 -2.3%
<b>Favourable scenario</b>	What you might get back or pay after costs Average return/loss over notional amount	HUF 2,930,223 -2.3%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back or pay.

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes, which have been calculated based on simulations using the past performance of the currency pair over the past 5 years. The stress scenario shows what you might get back or pay in extreme market circumstances.

This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will make a large loss if you do so.

### 3. WHAT HAPPENS IF UNICREDIT BANK CZECH REPUBLIC AND SLOVAKIA, A.S., ORGANIZAČNÁ ZLOŽKA UNICREDIT BANK CZECH REPUBLIC AND SLOVAKIA, A.S., POBOČKA ZAHRAŇIČNEJ BANKY IS UNABLE TO PAY OUT?

Counterparties of derivative transactions are exposed to the risk that UniCredit Bank Czech Republic and Slovakia, a.s., organizačná zložka UniCredit Bank Czech Republic and Slovakia, a.s., pobočka zahraničnej banky becomes unable to discharge its obligations under the transaction, for example in the case of an insolvency (inability to pay or overindebtedness) or in the case resolution measures are taken by an authority against the credit institution. Such a decision to take resolution measures can, for example, be taken if the assets of the institution are less than its liabilities, where it is unable or will, in the near future, be unable to pay its debts or other liabilities as they fall due, or where it requires extraordinary public financial support. Where resolution measures are taken, the competent resolution authority can decide on an early termination of the derivative transaction. In the case such early termination results in a claim of the counterparty against the credit institution, the decision of the resolution authority can lead to a partial or complete reduction of the principal amount of this claim or in a conversion of this claim in to equity (shares or other types of equity).

If UniCredit Bank Czech Republic and Slovakia, a.s., organizačná zložka UniCredit Bank Czech Republic and Slovakia, a.s., pobočka zahraničnej banky does not fulfil its obligations connected with the product or is unable to pay, you can lose part of or the full payout or can suffer an unlimited loss. This product is not protected by any deposit guarantee scheme, legal or otherwise, or any other type of guarantee.

#### 4. WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- The product does not change in value (0% annual return).
- A notional amount of HUF 3,000,000

If you end after 1 month (Recommended holding period)	
<b>Total costs</b>	HUF 96,000
<b>Cost impact (*)</b>	3.2%

(\*) This illustrates the effect of costs over a holding period of less than one year. This percentage is calculated considering the aggregated cost in the period divided by the notional amount and cannot be directly compared to the cost impact figures provided for other products.

#### COMPOSITION OF COSTS

One-off costs upon entry or exit		If you end after 1 month
<b>Entry costs</b>	These costs are already included in the price you pay.	Up to HUF 96,000
<b>Exit costs</b>		Not applicable

#### 5. HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

##### Recommended holding period: 1 Month

The recommended holding period corresponds to the contractually agreed term. You are not entitled to unilaterally terminate the product prematurely. However, the right of early termination may be agreed for one or both contracting parties. In the event of an agreed early termination, you will either receive or pay a compensation payment, which is made up of the market value of the product and the termination costs, including a margin earned by the bank. Significant additional costs may be incurred.

#### 6. HOW CAN I COMPLAIN?

You can make complaints about the product, or about the behaviour of the issuer of the product or of the persons that provide advice regarding or who sell the product, on the following website [www.unicreditbank.sk/PRIIPS](http://www.unicreditbank.sk/PRIIPS), in writing to UniCredit Bank Czech Republic and Slovakia, a.s., pobočka zahraničnej banky, Šancová 1/A, 813 33 Bratislava, Slovenská republika or via e-mail to [reklamacie@unicreditgroup.sk](mailto:reklamacie@unicreditgroup.sk).
